# **THE RELIGIONS OF THE WORLD**

**By GEORGE A. BARTON**

*Professor of Biblical Literature and Semitic Languages in  
Bryn Mawr College*

Professor Barton's book fills a long-felt need in the field of comparative religion for a collection of facts which are suitable for the general reader. The book deals with the origin, history, and principal teachings of all the great religions. The author points out those characteristics of Christianity which make it destined to be the universal religion, and the result of the study should be a greater respect for all religions with a supreme allegiance to Christianity.

## **Immortality and Theism**

By **WM. W. FENN**, Dean of Harvard Divinity School

"Professor Fenn has with great sweetness, beauty of style and thought, and deeply reverent and forward looking vision, stated the case for personal survival from the point of view of one unboundedly confident 'that highest good is highest truth.' This is altogether a beautiful thing, beautifully done."—*New York Evening Post*. \$1.00

## **Living Again**

By **CHARLES R. BROWN**, Dean of Yale Divinity School

A noteworthy statement of the problem of immortality from the religious teacher's point of view. Casting aside any attempt to prove the doctrine on the basis of our present scientific data, Dr. Brown here presents it as a venture of faith, reenforced by the reminder to his readers of those high hours in experience when the feeling is instinctive and compelling that our life has permanent worth. \$1.00

## **Pagan Ideas of Immortality**

By **CLIFFORD H. MOORE**

"He has covered much ground in a short space. The focus of the lecture is the sixth Aeneid; he gathers up the threads which contributed to Virgil's conception of the future life, speaks of their subsequent development, and shows how pagan ideas anticipated many of the root-notions of Christianity and prepared an environment in which it might grow. It is an able piece of work, full of interest both for the expert and the layman."—*Oxford Magazine*. \$1.00

## **Metempsychosis**

By **GEORGE FOOT MOORE**

This is a popular sketch of the doctrine of transmigration of souls as exhibited in various historic faiths. The doctrine prevailed in India, it was also at home in Greece, it was current among Christian Gnostics, it was taken up in certain circles of Jews and Moslems, and it finds exponents even in modern times. An appended list of notes gives the chief source-materials from which the reader may pursue the subject more at length. \$1.00

## **The Religious History of New England**

By **JOHN W. PLATNER**, and others

Sketches by prominent leaders in eight denominations. "The lecturers seem to vie with each other in making their respective subjects interesting. As a result we have here an unusually interesting history."—*Union Seminary Review*. "This is a delightful and instructive work. The survey in each case is a masterly one—clear, comprehensive, fair, judicial."—*Methodist Quarterly Review*. "A very helpful volume."—*Baptist World*. \$3.00

# The Dramatization of Bible Stories

By ELIZABETH E. MILLER, Instructor in Art in the School of Education, The University of Chicago

¶ A book which presents cogent reasons for leading children to dramatize great religious stories—develops the process of creating drama from biblical stories—shows stories in all stages of development by children engaged in their dramatization—suggests simple and practical directions for staging.

¶ This book gives the methods and results of an experiment that has been carried on by the author for several years, in adapting striking biblical stories for dramatic presentation by children. The book is educationally sound in that its purpose is to *train* the children in the *process* of dramatization, rather than to produce elaborate and finished dramatic effects.

An invaluable book for the home, the day school, and the Sunday school

# Religious Education in the Family

By HENRY F. COPE

General Secretary of the Religious Education Association

THE author deals with the real meaning of religious education in and through the home and its significance to society. He interprets past customs and recommends many new and definite practices for the direction of the child's religious ideals and activities.

To the sane discussion of family worship, church-going, the Bible in the home, and Sunday occupations the author adds illuminating chapters on the family table, stories and reading, week-day activities, the school, moral crises, and other vital topics.

A book especially valuable for parents' associations and classes and all individuals and organizations interested in child welfare and the promotion of a Christian type of home.

# A SHORT HISTORY OF CHRISTIAN THEOPHAGY

By PRESERVED SMITH, PH.D.

*Pages, 223 Cloth, Price \$2.00*

"In proportion as the knowledge of history becomes more profound and intelligent," says the great French scholar, Gabriel Monod, "an ever larger place is given to the study of religious beliefs, doctrines, and institutions." But, continues the same authority, the study of these phenomena is as yet very backward, partly because of the intrinsic difficulty of the subject, partly because the fear of wounding others' feelings or of exciting their prejudices prevents many investigators from cultivating this field in a scientific spirit. The present work attempts to subject to rational analysis and objective consideration one of the most interesting and fundamental of Christian doctrines. The author, who writes *sine ira et studio*, as one who has no party to serve and no cause to advance save that of truth, coolly exhibits the history of the idea of the sacrificed and eaten god from its obscure dawn in primitive times to its evening twilight in the present.

The practice of eating a god in the form of first-fruits or of a divine animal originated in ancient times, and attained an extraordinary development in the Mystery Religions of the Greeks, in the cults of Attis, of Adonis, of Osiris, of Dionysus, of Demeter, and of other Saviour Gods. From these cults the idea was borrowed by Paul and, against opposition of the Jewish Christians, fastened on the church. The history of the dogma, after the first centuries of our era, has been the story of attempts to explain it. Transubstantiation and the doctrine of the sacrifice of the mass were not, as commonly by Protestants and rationalists they are said to be, the inept inventions of a barbarous age, but were the first endeavors to reason about and philosophically to elucidate beliefs formerly accepted with naive simplicity. The hardest battles over the dogma came in the Reformation period, which accordingly bulks large in the present work. While Luther, Calvin, and other prominent Reformers believed in a real presence, but tried to give its mode new explanations, other more advanced spirits, Honius, Carlstadt, Swingli, Tyndale, and their fellows, adopted the view, now prevalent in Protestant communions, that the eucharistic bread and wine were mere symbols. After the heat of the sixteenth-century controversies, Zwinglian or rationalist views were quietly adopted by most Christians, though here and there high sacramentalism survived or was revived.

Rightly understood the present study will be appreciated as a scientific essay in the field of comparative religion, and as furnishing a rational explanation of much that is most delicate and important in the history of Christianity.

# The Religion of the Psalms

*By*

**DR. J. M. P. SMITH**

Professor of Old Testament Language and Literature  
The University of Chicago

The Religion of the Psalms aims to give an understanding of the purpose for which the Psalms were written and of their function in the Jewish community. Its point of view is that the religion of the Psalms cannot be understood apart from some general knowledge of the conditions amid which they were written and the needs they were intended to satisfy. Only after one has learned the original significance of the Psalter is he in a position to use it intelligently for the instruction and comfort of his own generation.

The Psalms are a record of the inner religious life of the later Jews. They show how the saints of that period met the problems of the spiritual life in their day. In so far as our needs are the same as theirs and in so far as they put their own experience on record the Psalms become for us a store of moral and spiritual wisdom. As we see the influences that operated to produce certain hopes and fears, we are enabled to determine more accurately the validity of those reactions and to control our own minds and hearts accordingly.

The faith of the Psalmists in the presence of appalling difficulties and dangers is a constant marvel. To read the record of their loyalty stimulates our own. Faith kindles faith.

Each chapter is rich in information and suggestions for the person who desires greater knowledge about the Psalms. Every minister will find here material which will open up the treasure house of the Psalms and thus increase the pleasure and profit of their use for devotional and sermonic purposes.
